France Piles Up Gold.

PARIS, Feb. 11.—The report of the Bank of France for the year of 1914 shows that the amount of gold on hand increased more than 440,000,000 francs, bringing up the gold reserve at the end of the year to 4,461,000,000 francs.

On December 24 last the Bank of France lent to the government 2,900,000,000 francs and to private borrowers for commercial and industrial purposes 4,481,000,000 francs. The dividend rate was decreased by 10 francs as compared with 1912.

Wilhelmina in Falmouth.

FALMOUTH, Feb. 11.—The American steamer Wilhelmina, which has a cargo of food supplies aboard for Germany arrived here. The captain of the Wilhelmina said he came to Falmouth of his own free will and had no prize crew aboard.

Customs officers visited the vessel immediately on her arrival, but it has not been announced what action, if any, was taken. The Wilhelmina lies in the stream with the American flag flying. She had an extremely rough passage, the officers describing it as the worst in their experience.

Another awful war is threatened among the various American cities that are trying to become fashion centers.

HOW TO CLEAR AWAY PIMPLES

Bathe your face for several minutes with resinol soap and hot water, then apply a little resinol ointment very gently. Let this stay on ten minutes, and wash off with resinol soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear and velvety.

Resinol ointment and resinol soap stop itching instantly and speedily heal skin humors, sores, burns, wounds and chafing. Sold by all druggists.

SOAP FOR BABY'S TENDER SKIN
The regular use of resinol soap is usually enough to prevent those distressing rashes and chaffings to which most babies are subject. This is so, first, because resinol soap is absolutely pure and free from harsh alkali, and second, because it contains the resinol medication, on which so many physicians rely for skin troubles.

YOUNG STANDARD OIL
OFFICIAL WHO IS LOST

Detectives searching for Henry C. Coe, Jr., a former New Yorker and now Boston representative of the Standard Oil Company, who has mysteriously disappeared, said they felt he had been murdered or was being held for ransom.

At the Coe home, 1200 Commonwealth avenue, Allston, Mrs. Coe is prostrated. She was Helen Ainslee, daughter of A. Allen Ainslee, former proprietor of the Hotel Lenox and several other large hotels scattered throughout the country.

She is in a delicate condition, and grave fears are entertained that her husband's disappearance may result seriously.

Police and operatives from the Burns detective agency are hunting for Coe, who is twenty-three years old.

Coe left his home in Allston on Saturday morning, Jan. 30, to meet General Manager Wilkinson of the Standard Oil company. He was to be told that he had been promoted and that his sales territory had been extended to take in more important ground.

When he left home he was in a most cheerful state of mind. He had with him \$100 in cash and wore a three-toned diamond ring valued at \$300 and an amethyst scarfpin. He boarded a trolley car near his home bound downtown. Where he left the car or when he is not known, though he was seen on the car by acquaintances.

Largest and most brilliant of the card parties of the season was the one yesterday afternoon in the Eagle-Woodman hall at which Mrs. Fred Earl, Mrs. Lawrence Frazier and Mrs. Clark Nelson were hostesses. About eighty ladies were present to enjoy the charming hospitality of the three young matrons.

The large hall had been darkened and lamps shaded with red, cast a warm glow over the tables. Rich Turkish rugs were on the floor, giving a drawing room effect, and the wall and overhead decorations were of red. Bridge was played at twenty tables, honor being won by Mrs. Charles Bond and Mrs. Charles A. Murphy.

During the afternoon Mrs. Frank E. Boyden favored the guests with several beautiful piano selections and Mrs. Roy Alexander and Mrs. Carl Power contributed to the enjoyment with vocal numbers. Assisting the hostesses in serving the refreshments late in the afternoon were Mrs. Frank B. Hayes, Mrs. Richard Mayberry, Mrs. W. P. Temple, Mrs. Henry W. Collins, Mrs. George Strand, Mrs. Willard Bond, Mrs. Roy Alexander and Mrs. Seth Catlin.

Miss Elma Dunn entertained the Embroidery Club Wednesday afternoon at Woodlawn Farm on McKay creek. Light refreshments were served and Miss Verna Ackerman rendered several selections on the piano, which were enjoyed by all.

A large crowd attended the "good times" dancing party last evening in the Moose hall, given by Daphne Circle, Women of Woodcraft.

This evening the high school students will entertain the members of the Walla Walla high school girls' basketball team at the U and I dance in Moose hall.

Mr. and Mrs. A. H. Cox left today for San Francisco for a visit in the exposition city.

Boyce Fenton and Clark Burgard, students at the University of Oregon and members of the Beta Theta Pi fraternity, are spending the day with Pendleton friends en route back to Eugene from Walla Walla where they visited for several days with Whitman college friends.

Miss Alice Butler, head of the domestic science department at the high school, and her students will preside this evening at a dinner party given to the members of the school board and their wives, Supt. and Mrs. J. S. Landers and Principal and Mrs. A. C. Hampton.

The Current Literature Club is this afternoon enjoying the club annual. Following a luncheon at the Hotel Pendleton, the members will adjourn to the home of Mrs. J. F. Robinson to play bridge.

Belgian Army Shaken Up.
HAVRE, Feb. 11.—The Belgian army has lately undergone a complete shake-up and reorganization, followed by the retirement of all the generals commanding divisions, including even the brilliant General Bertrand, who is incapacitated by illness. These officers have been replaced by younger and more active men.

From officials connected with the Belgian government at Havre it is learned that the new army is divided into six divisions. Mixed brigades have been dispensed with, and as cavalry can play no active role in the present trench warfare, its officers and men are largely serving as infantry. A section of auto-cannons has been created in imitation of the Germans, who use these mobile weapons in their surprise attacks on Furnes and Cuxyde, being able to run in close to the enemy's lines and escape unscathed, especially in times of fog.

As the Belgian cyclists have already established a record of daring in their assaults within the German lines, the auto-artillery is expected to give an equally good account of itself. Its commander is Major Colson, late military attaché at Paris.

Consuls' Flags Lowered.
AMSTERDAM, via London, Feb. 11.—The Telegram publishes a dispatch saying that the German commander at Bruges, Belgium, ordered all the consulates there to haul down their flags and remove the coats-of-arms.

The consuls the dispatch added including the representative of Turkey, protested but the order was enforced, in some cases with violence and in addition the consuls were compelled to surrender all their arms.

Berlin Buys in Rumania.
BERLIN, Feb. 11.—It is semi-officially reported from Bucharest that Rumania is to supply Germany, by pre-arrangement, a large quantity of grain.

Transportation for the grain is to be furnished by Germany.

Big Ships Pass Canal.
PANAMA, Feb. 11.—The new Northern Pacific steamship Great Northern and the American line steamer, Kronland, the two largest passenger boats yet to use the Panama canal, passed through the waterway, both making fast time.

The trip was without special incident. The ships used the new channel, which has been dredged through the slides at Cuanacha.

A. B. C. Denniston Named.
SAN FRANCISCO, Feb. 11.—A. B. C. Denniston, a well known steamship man of the Pacific coast, has been appointed general agent of the pas-

senger department of the Great Northern-Pacific Steamship company here.

Mr. Denniston will make his home in San Francisco. He was formerly connected with eastern railroads, later moving to Portland, where for several years he was passenger agent of the same railroad company. In Seattle he was also northwestern passenger agent of the Pacific Coast Steamship company, resigning to become owner and general manager of a number of steamers plying on Puget Sound.

Buckwheat Cakes

Raised without Yeast

When they are just right, the old fashioned yeast-raised buckwheat cakes are just fine. But it takes a skillful hand to get them "just right" and many housewives do not want to be bothered with a bowl of batter standing around all the time. Made after this recipe, buckwheat cakes are as good as any you ever ate and much superior to those made with self-raising flour.

Made with K C double raise baking powder, the last of the batter will make just as light cakes as the first.

K C Buckwheat Cakes

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

1 cup buckwheat flour; 1 tablespoonful sugar; 2 level teaspoonfuls K C Baking Powder; 1 1/2 cups cold water; 1/2 teaspoonful salt.

Sift together, three times, the flour, sugar, salt and baking powder; stir the water in all at once and bake on a hot, well oiled griddle. Buckwheat flour calls for a generous measure of baking powder. Part milk may be used to mix the cakes but water gives quite as good results.

A delicious "spread" for griddle cakes is made by creaming together about twice as much honey (either comb or strained) as butter. Work it up with a fork to about the consistency of hard sauce.

Readers of this paper may obtain "The Cook's Book" containing this and 89 other delicious recipes free by sending the colored certificate packed in every 25-cent can of K C Baking Powder to the Jacques Mtg. Co., Chicago. Send for "The Cook's Book" today.

Blood Sufferers Want to Know

The Light is Turned on to a Subject of Darkness.

The mere fact that S. S. S., the famous blood purifier, drives out disease is a world's story, a topic of conversation wherever men get together.

They wonder why, simply because most remedies are scolded and put before them as "discoveries." The facts are that we pay too much attention to possibilities and not enough to real, homespun accomplishment. S. S. S. is a remedy of our fathers. It has a history that is written deeply in men's minds because it has done the work, driven out deep seated disease, revived, kept, put the O. K. on appearance and clamped down tight any effort of germs to get the upper hand. Any sore spot on the skin is an immediate demand for S. S. S. since the first principle of this famous remedy is to strike out for places of trouble. This is a physiological fact and S. S. S. is true to the workings of our body.

Get a bottle of S. S. S. today at any druggist and begin blood health. It will master any blood disease and do it in a way to emphasize its infirmities. And if you would like definite advice write The Swift Specific Co., 66 Swift Bldg., Atlanta, Ga. Their medical department is where most people first seek advice that puts them on the straight road.
